### **Bona US Launches New Bona Craft Oil 2K at National Wood Floor Association Expo *Show Attendees Will Also Preview the New Bona Atomic Van***

**Aurora, Colo., April 7, 2017** – At the 2017 National Wood Floor Association Expo, **Bona US**, the world leader in hardwood floor care and maintenance since 1919, is announcing the launch of its new Bona Craft Oil 2K, a high performance, natural penetrating floor oil to create beautiful hardwood floors. Also at the Expo, Bona will showcase its new Bona Atomic Van, an innovative van-mounted Bona Atomic Dust Containment System that offers a powerful system, providing evacuation of the airborne dust that is generated from the hardwood floor sanding process.

“Today’s hardwood floors bring a stunning aesthetic to any room or building. Bona continues to innovate best practices and tools to get the job done right every time,” said Cate Vanegas, Director of Marketing, Bona US. “We are excited with the early reception of our new Bona Craft Oil 2K which brings a unique look to floors and completes the Bona System.”

The new Bona Craft Oil 2K offers all the benefits of a natural oil finish with a high level of performance and versatility. Ideal for creating beautifully designed floors, the enhanced open time of Bona Craft Oil 2K, along with its ability to set up quickly makes it easier to work with and allows for light use in just eight hours. The unsurpassed viscosity penetrates deep into the hardwood floor in one coat resulting in strengthened wear resistance and an organic looking floor with a rich patina. Hardwood floor craftsman can blend or apply two tones for a custom look or further protect floors by overcoating with any finish in the Bona Traffic® family.

Showcased at the Bona booth (#1532), the innovative Bona Atomic Van is ideal for hard-to-access commercial jobs and offers a powerful system for providing evacuation of airborne dust. Powered by a fuel efficient, 29-HP electronic fuel injected water-cooled Kawasaki engine the Bona Atomic Van operates outside the home or business. Connecting the sanding machines to the van are 200 feet of 2-inch, and 100 feet of 1.5-inch non-marking hoses along with 15 feet. of 1.5-inch non-marking hose with detailing end attachments.

Additionally, on Wednesday, April 12 at 12:30 p.m., Bona will offer a preview of the Bona FlexiSand Power Drive with Bona’s new wire brush attachment and Bona Craft Oil 2K, at the Expo’s Exhibitor Demonstration Theater. This 30-minute preview will show how to offer a distress look or to open the grain of site finished floors. The wire brush attachment will be available for purchase in late summer 2017

At the NWFA Wood Flooring Expo Bona can be found at booth #1019 and 1532.

#### **About Bona US**

Bona is an innovative, environmentally-conscious company dedicated to creating beautiful floors since 1919. Bona US, the North American subsidiary of BonaAB in Malmö, Sweden, manufactures and distributes floor care and home cleaning products. The first in the industry to offer a full system of waterborne hardwood floor finishing and floor care products certified for indoor air quality by GREENGUARD, Bona products can be found throughout the U.S. and Canada. From residue-free hardwood floor cleaners to a beautiful array of stains and high durability finishes, consumers, distributors and contractors trust Bona.
